

HALLOWEEN BUNTING

Materials

Assortment of black, orange or Halloween patterned fabric
Approx 8½ feet of co-ordinating bias binding

Method

Cut 18 60° triangles with 6½" sides. Half plain for the backs and half decorative fronts. Fussy cut pictures can be bondawebbed on.

Place front and back triangles right sides together and join two sides together with ¼" seam. Trim the point, turn through and press well. Arrange the bunting pieces and, folding the bias binding over the top raw edges, machine to join together in a string leaving around 4" between each triangle. Have about 8" of bias binding at each end for attaching.
